## INFORMATION

Office of Shared Accountability  
MONTGOMERY COUNTY PUBLIC SCHOOLS  
Rockville, Maryland

September 17, 2015

### MEMORANDUM

To: High School Principals

From: Maria V. Navarro, Chief Academic Officer

Subject: INFORMATION: SAT Participation and Performance and the Attainment of College Readiness Benchmark Scores for the Class of 2015

The mean SAT combined score for the Montgomery County Public Schools (MCPS) Class of 2015 was 1629, a decline of 21 points from 2014. This was the same trend observed in the state and nationwide. MCPS students continued to outperform their peers in the state of Maryland and the nation on the SAT according to the *2015 College-bound Seniors* report September 3, 2015. The mean SAT combined score for MCPS 2015 graduates was 167 and 139 points higher than those for graduates in the state (1462) and the nation (1490), respectively (Figure 1). In examining trend data, the mean SAT combined score of MCPS graduates decreased by 8 points from 2011 to 2015. The same trend was observed for graduates statewide and nationwide whose scores declined by 30 and 10 points, respectively.

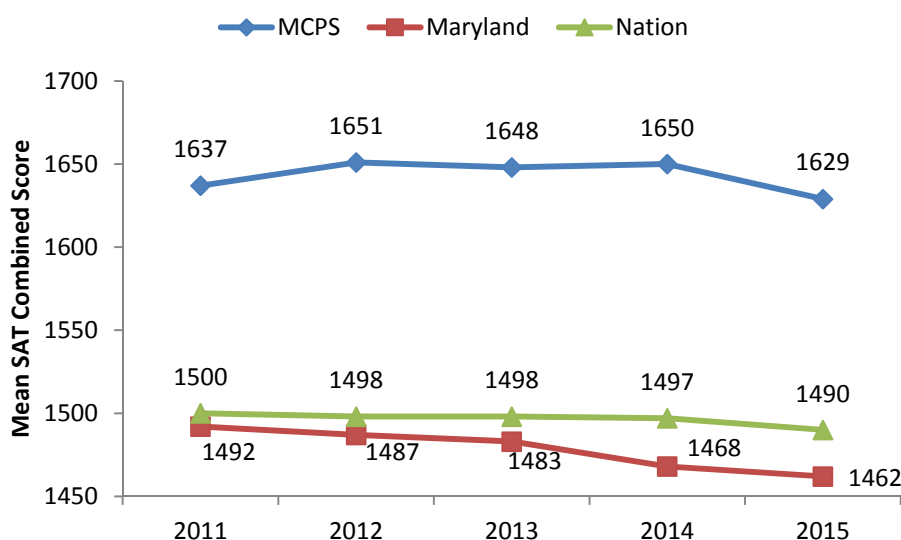

Figure 1. Mean SAT combined scores of graduates in MCPS, Maryland, and the nation from 2011 to 2015.

One of the five strategic priorities for MCPS during the 2015–2016 school year is a focus on math and literacy, which are the content areas measured on SAT. This focus will help ensure that students have the literacy and math skills needed to be college- and career-ready. In addition to this instructional priority, MCPS intends to strengthen the focus on data-driven monitoring of student performance that guide school improvement efforts. MCPS school staff will continue to use the college readiness monitoring tools developed by the Office of Shared Accountability as a part of our efforts to improve performance on college entrance exams. The College Readiness Monitoring Tools are designed to serve high schools in supporting students' instructional program and academic attainment. With seven deliveries to schools each year, the college readiness monitoring tools allow schools to not only monitor students' course attainment in English and mathematics, but also gauge students' readiness for college-level courses. These research-based tools provide timely information to high schools on the SAT, ACT, and ACCUPLACER placement tests for monitoring purposes. College readiness monitoring will help schools to prepare all students for postsecondary and career success by identifying students for academic reinforcement or support as early as Grade 9.

On average, MCPS Black or African American students in the Class of 2015 outperformed their peers in the state and the nation by 142 and 119 points, respectively (Figure 2). A comparison of 2014 to 2015 reveals that mean SAT combined score for MCPS Black or African American students declined 7 points (from 1403 to 1396). The trend for Black or African American students in the state and nationwide differed from MCPS, with 1 point decline for the state and an 8 point increase nationwide. In the past five years, MCPS Black or African American graduates progressively improved their mean SAT combined score by 14 points, while Maryland graduates' scores exhibited a sharp decline of 12 points. The mean SAT combined score for the graduates in the nation rose five points from 2011 to 2015.

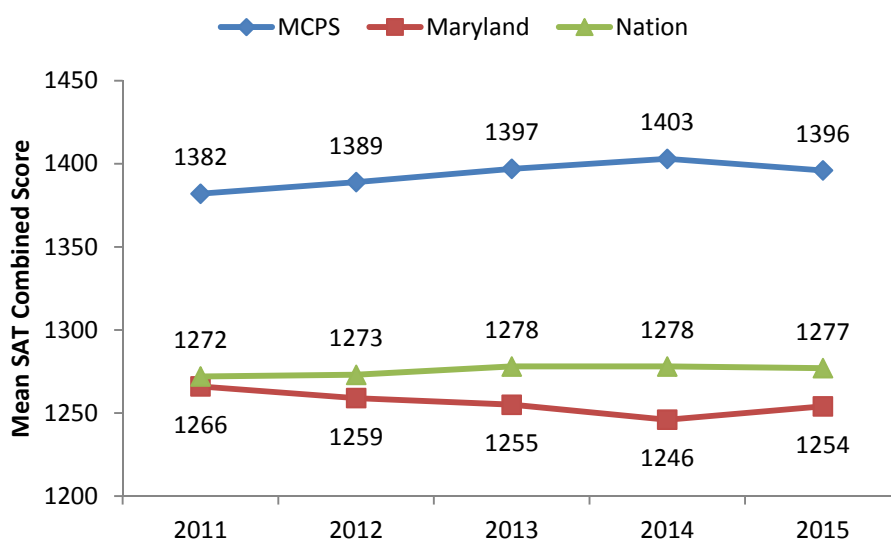

Figure 2. Mean SAT combined scores of Black or African American graduates in MCPS, Maryland, and the nation from 2011 to 2015.

MCPS Class of 2015 Hispanic/Latino graduates scored 102 and 117 points higher than their peers in the state and the nation, respectively (Figure 3). The mean SAT combined score for MCPS Hispanic/Latino graduates in 2015 remained steady compared to 2014. However, there was a decline

of mean SAT combined scores for Hispanic/Latino graduates in the state of Maryland and the nation from 2014 to 2015 (15 points and 9 points, respectively). Further analysis of trend data reveal a decline of mean SAT combined scores for Hispanic/Latino graduates in MCPS, the state of Maryland, and the nation from 2011 to 2015. The mean SAT combined scores for Hispanic/Latino graduates in MCPS, Maryland, and the nation decreased 16, 81, and 14 points, respectively.

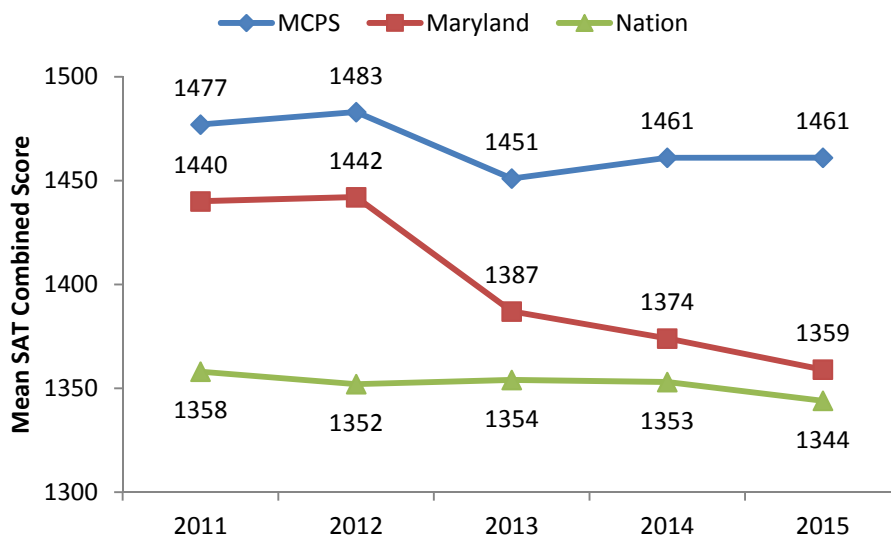

Figure 3. Mean SAT combined scores of Hispanic/Latino graduates in MCPS, Maryland, and the nation from 2011 to 2015.

Overall, the SAT participation rate for MCPS graduates (67.8 percent) was 15.5 percentage points higher than that for graduates in the nation (52.3 percent), but was 10.9 percentage points lower than that for graduates in the state of Maryland (78.7 percent) (Figure 4). Participation rates dropped 1.3 percentage points from 2014 to 2015 for MCPS graduates compared to slight increases observed for the state and nationwide (0.2 and 0.3 percentage points, respectively). From 2011 to 2015, the participation rate for MCPS 2015 graduates decreased by 2.8 percentage points, while the rates for graduates in the state and the nation showed an increase of 5.2 and 2.1 percentage points, respectively.

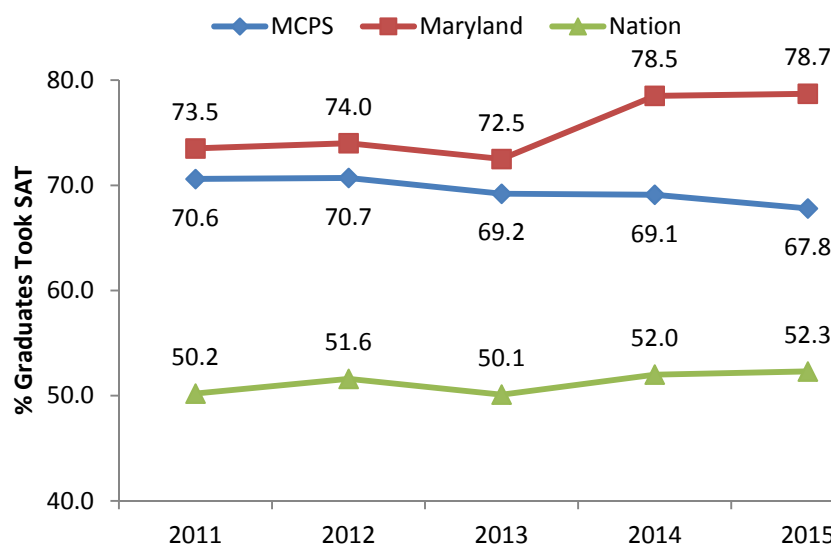

Figure 4. SAT participation rates of graduates in MCPS, Maryland, and the nation from 2011 to 2015.

### Results for SAT Participation and Performance in MCPS

Overall, SAT participation for the MCPS Class of 2015 declined from 70.6 percent in 2011 to 67.8 percent in 2015 (Table 1). From 2014 to 2015, decreases in participation were observed for almost all racial/ethnic groups and services (ranging from 0.8 to 6.5 percentage points); a 3 percentage point increase was observed for Black or African American graduates. It is important to note that participation rates for students taking only the ACT increased from 8.2 percent to 9.6 percent during this same time. Additionally, the percentage of graduates taking only the ACT has consistently increased for the past five years (from 6.7 percent in 2011 to 9.6 percent in 2015). Among all racial/ethnic groups, the SAT participation rate for Black or African American graduates increased 2.7 percentage points from 2011 to 2015, while the rates for graduates of other racial/ethnic groups decreased. The most significant decline was the rate for White graduates (5.2 percentage points). In the past five years, the SAT participation rate for graduates receiving Free and Reduced-price Meals System (FARMS) services increased 2.4 percentage points, while there was a decrease in SAT participation rate for graduates who received special education services (2.3 percentage points). From 2012 to 2015, the participation rate for Limited English Proficiency (LEP) graduates remained steady.

The most recent mean SAT combined score for the MCPS Class of 2015 (1629) was 8 points lower than that for the Class of 2011 (1637) (Table 1). From 2011 to 2015, Asian, Black or African American, and White graduates improved their SAT mean combined scores by 13, 14, and 11 points, respectively. From 2011 to 2015, the graduates who received FARMS and special education services improved each of their mean SAT combined scores by 3 points. LEP graduates' scores saw a decline of 62 points from 2012 to 2015.

Table 1  
Percentage of SAT Test Takers and Most Recent Mean SAT Combined Scores for the  
MCPS Classes of 2011–2015 by Student Group

	% Took SAT					Combined Score				
	2011	2012	2013	2014	2015	2011	2012	2013	2014	2015
MCPS	70.6	70.7	69.2	69.1	67.8	1637	1651	1648	1650	1629

BL	63.0	63.5	61.0	62.7	65.7	1382	1389	1397	1403	1396
HI	48.1	47.7	47.3	47.3	46.3	1477	1483	1451	1461	1461
WH	80.6	80.6	78.8	78.3	75.4	1745	1766	1768	1766	1756
MU	75.2	79.6	78.0	78.8	72.3	1689	1700	1710	1751	1674
FARMS	49.1	47.1	48.2	49.0	51.5	1368	1360	1382	1388	1371
Sp. Ed.	35.0	34.2	33.7	33.5	32.7	1347	1372	1409	1374	1350
LEP	n/a	36.5	36.2	42.2	36.2	n/a	1341	1289	1318	1279

*Note.* AS = Asian; BL = Black or African American; HI = Hispanic/Latino; WH = White; MU = Two or More Races; FARMS = Free and Reduced-price Meals System; Sp. Ed. = Special Education; LEP = Limited English Proficiency. Results for MCPS American Indian and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Scores are based on the most recent SAT test. Results are not available (n/a) for Limited English Proficiency students in 2011.

### Attainment of College Readiness Benchmark Scores

One important measure of MCPS' districtwide milestones is scoring 1650 or higher on the SAT, or 24 or higher on the ACT (college readiness benchmark scores). Overall, MCPS graduates continued to improve the rate of meeting college readiness benchmark scores from 50.4 percent in 2011 to 52.7 percent in 2015 (Table 2). All racial/ethnic groups improved their rates (1.5 to 4.8 percentage points) of meeting college readiness benchmarks from 2011 to 2015. Graduates who received FARMS and special education services improved their rates of meeting college readiness benchmarks by 2.0 and 1.7 percentage points in the Class of 2015, respectively, compared with their peers in the Class of 2011. From 2012 to 2015, the rate of meeting college readiness benchmark scores for LEP graduates decreased 4.6 percentage points.

Table 2  
Number and Percentage of Graduates who Scored SAT 1650 or Higher or ACT 24 or Higher  
(College Readiness Benchmark Scores) for the MCPS Classes of 2011–2015 by Student Group

	N Met Benchmark					% Met Benchmark

*Note.* AS = Asian; BL = Black or African American; HI = Hispanic/Latino; WH = White; MU = Two or More Races; FARMS = Free and Reduced-price Meals System; Sp. Ed. = Special Education; LEP = Limited English Proficiency. Results for American Indian and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Results are not available (n/a) for Limited English Proficiency students in 2011.

## Data Tables

The attached tables provide additional information about SAT/ACT participation and performance, as well as the attainment of college readiness benchmark scores. Tables in Appendix A detail students' most recent SAT scores to be consistent with the reporting rule of the *College-Bound Seniors Report* by the College Board.

- Tables A1 to A3 provide data on SAT participation and performance among groups of graduates in the Classes of 2011 to 2015 in MCPS, Maryland, and the nation.
- Tables A4 to A6 identify SAT data on MCPS student groups and high school participation and performance by gender, race/ethnicity, and service group for the Classes of 2011 to 2015.
- Tables A7 to A9 list SAT data by high school for the Classes of 2011 to 2015.
- Tables A10 to A14 indicate the number of graduates; number and percentage of students taking the SAT; and mean SAT critical reading, mathematics, writing, and combined scores by gender, race/ethnicity, and service group by high school for the Class of 2015.

The data tables on SAT performance in Appendix B reveal the highest SAT combined score in one test administration. MCPS monitors students' highest SAT combined scores in one test administration to align with the College Board's SAT score-reporting policy, Score Choice. This policy allows students the option to send SAT scores by test date in accordance with a particular college's score-use practice.

- Tables B1 to B5 provide SAT participation and performance data for MCPS high schools and student groups by gender, race/ethnicity, and service groups for the Class of 2015.

Tables in Appendix C portray the participation and performance of SAT and ACT, and the attainment of college readiness benchmark scores (scoring 1650 or better on the SAT or 24 or better on the ACT). The reporting rule is based on the highest SAT combined score in one test administration or highest ACT score.

- Tables C1 and C2 describe participation and performance on SAT and ACT, participation and performance in SAT or ACT, and include data on the attainment of college readiness benchmark scores, disaggregated by gender, race/ethnicity and special services and by high schools for the Classes of 2011 to 2015.
- Table C3 shows the participation and performance on SAT and ACT, participation and performance in SAT or ACT, and incorporate data on the attainment of college readiness benchmark scores disaggregated by race/ethnicity, service group, and high school for the Class of 2015.

If you have any questions about SAT participation and performance data or the attainment of college readiness benchmark scores, please contact Dr. Kecia L. Addison, supervisor, applied research, Office of Shared Accountability, at 301-279-3194.

*Note.* AS = Asian; BL = Black or African American; HI = Hispanic/Latino; WH = White; MU = Two or More Races. The sums of rounded subtest score means may differ by one point from the combined score calculated with unrounded sums. Results for MCPS American Indian and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. Results are not applicable (n/a) for students of Two or More Races in Maryland and the nation. Therefore, race/ethnicity comparison between MCPS and Maryland and the nation should be interpreted with caution. Scores are based on most recent SAT test.

<sup>a</sup> Results are presented for all test takers regardless of school type (public versus private).

Results for American Indian and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. The SAT combined scores are the sums of unrounded subtest scores and may differ by one point from combined scores calculated with rounded sums. Scores are based on the highest SAT score in one test administration. To comply with federal requirements, test results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the test score will be reported. Additionally, any test scores based on percentage rates greater than or equal to 95.0% or less than or equal to 5.0% will be reported.

<sup>a</sup> Includes graduates enrolled in special schools during Grade 12.

*Note.* FARMS = Free and Reduced-price Meals System; LEP = Limited English Proficiency. Results for American Indian and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. The SAT combined scores are the sums of unrounded subtest scores and may differ by one point from combined scores calculated with rounded sums. The college readiness benchmark scores are met by attaining highest SAT combined scores of 1650 or higher in one test administration or highest ACT composite scores of 24 or higher. To comply with federal requirements, any percentage rates or test scores based on percentage rates greater than or equal to 95.0% or less than or equal to 5.0% will be noted as  $\geq 95.0$  or  $\leq 5.0$ , respectively, and the number of graduates and the number of test takers will not be reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate or test score will be reported. The number and percentage of graduates meeting college readiness benchmark scores are suppressed based on the number of the SAT and/or ACT test takers for each student group. Results are not available (n/a) for Limited English Proficiency students in 2011.

<sup>a</sup> Includes graduates enrolled in special schools during Grade 12.

<sup>b</sup> Percentage of meeting college readiness benchmark scores is based on SAT and/or ACT test takers.

*Note.* The SAT combined scores are the sums of unrounded subtest scores and may differ by one point from combined scores calculated with rounded sums. The college readiness benchmark scores are met by attaining highest SAT combined scores of 1650 or higher in one test administration or highest ACT composite scores of 24 or higher. To comply with federal requirements, any percentage rates or test scores based on percentage rates greater than or equal to 95.0% or less than or equal to 5.0% will be noted as ≥95.0 or ≤5.0, respectively, and the number of graduates and the number of test takers will not be reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate or test score will be reported. The number and percentage of graduates meeting college readiness benchmark scores are suppressed based on the number of the SAT and/or ACT test takers for each student group.

<sup>a</sup> Includes graduates enrolled in special schools during Grade 12.

<sup>b</sup> Percentage of meeting college readiness benchmark scores is based on SAT and/or ACT test takers.

*Note.* AS = Asian; BL = Black or African American; HI = Hispanic/Latino; WH = White; MU = Two or More Races; FARMS = Free and Reduced-price Meals System; Sp. Ed. = Special Education; LEP = Limited English Proficiency; NA=not applicable as there were no test takers. Results for American Indian and Native Hawaiian or Other Pacific Islander students are included with all students but are not reported separately. The SAT combined scores are the sums of unrounded subtest scores and may differ by one point from combined scores calculated with rounded sums. The college readiness benchmark scores are met by attaining highest SAT combined scores of 1650 or higher in one test administration or highest ACT composite scores of 24 or higher. To comply with federal requirements, any percentage rates based on percentage rates greater than or equal to 95.0% or less than or equal to 5.0% will be noted as ≥95.0 or ≤5.0, respectively, and the number of graduates and the number of test takers will not be reported (--). Additionally, any percentage rates or test scores are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate or test score will be reported. However, any test scores based on percentage rates greater than or equal to 95.0% or less than or equal to 5.0% will be reported. The number and percentage of graduates meeting college readiness benchmark scores are suppressed based on the number of the SAT and/or ACT test takers for each student group. The number and percentage of graduates meeting college readiness benchmark scores are suppressed based on the number of the SAT and/or ACT test takers for each student group.

<sup>a</sup> Includes graduates enrolled in special schools during Grade 12.

<sup>b</sup> Percentage of meeting college readiness benchmark scores is based on SAT and/or ACT test takers.
